

MyDTN

To be profitable, producers and channel professionals both need the most current, most accurate information possible. Both must save valuable resources and optimize decision making. Producers have the added challenge of maximizing operations and yields, while channel professionals must make accurate recommendations for loyal customers. MyDTN supports all of this and more.

MyDTN is the leading independent, trusted source of actionable insights and market information. It provides proven most accurate temperature and precipitation forecasts, proprietary industry coverage from our award-winning newsroom, and more. It supports fast, effective selling and buying decisions by aggregating and consolidating key information, such as commodity and cash market prices and unbiased market analysis. Most importantly, it keeps users connected anywhere their work takes them, even in the field.

## The best ag market data and analysis.

Simply put, we are ag's most trusted source of information and MyDTN delivers it all in one easy-to-use platform.

Stay on top of the industry with our award-winning editorial team's proprietary news content and independent market commentary.

Spot trends and nearby opportunities with the industry's largest database of local grain bids and prices.

Make better operational decisions backed by the industry's top-rated temperature and precipitation forecasts for 10 years running.

Produce more by reducing weather-related risks and poorly-timed operations with accurate local observations and forecasting tools.

***“MyDTN has such a vast amount of agronomic knowledge in marketing and weather. MyDTN allows me to have a quick study of what’s going on locally, nationally, and even globally. It’s easy to access and user friendly.”***

*“To me, MyDTN, is a one-stop source for finding just about anything I need to know about: agriculture markets, weather, foreign policy discussions, and issues. I don’t want to use the word addictive, but you’re almost to the point if you don’t have access to this information it’s like ‘oh what’s going on today?’ If you had to have one source to access what you need to help make decisions, I mean there’s no doubt in my mind DTN is that.”*

Mark Nowak

MyDTN takes marketing to the next level with our **DTN Six Factors® Market Strategies**, an unbiased advisory service for managing commodity and input price risks. It uses our proprietary methodology, which blends both technical and fundamental analysis best practices. The result is easy-to-follow, independent insights and pragmatic recommendations for futures and cash marketers alike. Users can discover rare marketing opportunities and lock in their best prices sooner, saving time and boosting profits.

## Personalize MyDTN to your operations.

MyDTN is designed so that time-critical, decision supporting insights are never out of reach. What’s more, you can customize its interface and filter the information to ensure you always see the content you need. Powerful alerts let you know when you have a favorable buying or selling opportunity, when the weather may impact your operations, or if a price fluctuation poses a risk to your bottom line. Optimized to work on tablets, smartphones, and other devices, MyDTN keeps you connected and agile anywhere, any time.

*Try MyDTN for yourself and experience how it can help improve your business.*

## Why DTN?

DTN is the independent, trusted source of actionable insights for 600,000 customers focused on feeding, protecting, and fueling the world. Customer-centric and employee-driven, DTN focuses on empowering agriculture, oil and gas, trading, and weather-sensitive industries through continuous, leading-edge innovation. The company produces *The Progressive Farmer* magazine, the premier publication in agriculture. DTN is based in Minneapolis with offices globally.
