

## Severe weather is nothing to play with.

Whether attending a professional event or a local rec league, nothing beats the excitement of gameday. The athletes are ready. The crowd is excited. It's an atmosphere that can't be matched. But severe weather can turn the atmosphere from exciting to dangerous in a flash. And at a moment's notice you have to make a decision: do we play or not?

Now with WeatherSentry Sports & Recreation Edition you can stay a step ahead of Mother Nature and get clear, concise data with actionable insights. Now you can see real-time weather information, including accurate forecasts, precision lightning, wet bulb globe forecasts, storm corridor information, and so much more. Our patented alerts for over 50 different weather warnings are sent right to your phone. Making it easier than ever to make faster, more informed decisions and keep your athletes and spectators safe and out of harm's way.

Make proactive decisions before lightning, severe weather or extreme heat hits with daily and hourly forecasts specific to your precise location.

Keep your athletes and crowds safe with ample warning as bad weather approaches.

Save time and money through more effective play or delay decisions.

## WeatherSentry Sports & Recreation Edition

### The information you need, right when you need it: now.

Lightning. Severe weather. Dangerously high temperatures. These things can all threaten the health of your athletes and fans. But with DTN's industry leading forecasts, you can better anticipate what's coming your way so you can act accordingly. And with daily forecasts 15 days out and hourly forecasts for the immediate 72 hours — tailored to your specific location — you know you're working with the most current information available. So you can always rest assured you're making the best possible decisions for the people in your community.

#### How it works

- The system provides daily forecasts for 15 days and hourly forecasts for the immediate 72 hours for your specific site.
- Forecasts are updated hourly, ensuring you have the most up-to-date information.
- Information is displayed in a fully customizable view that lets you track radar, storm corridors, wind, and lightning, including what time they'll be passing through your site.

- Patented alerting technology keeps you abreast of potentially hazardous situations.
- Use OnDemand or OnWatch or OnSite to consult with one of our experienced meteorologists and have your questions answered in minutes.

#### The features that help keep your teams and fans safe

- A single dashboard and multiple layers for comprehensive weather intelligence.
- Patented, location-specific alerts that can be customized over 50 parameters and ranked in order of importance to you.
- Patented PrecipTimer® tells you when rain will start and how long it's expected to last.

#### The DTN advantage

- We have been independently ranked the most accurate weather forecast 10 years in a row.
- We are a member of Weather Ready Nation.
- We offer an industry leading decision support system, including patented alerting.

"I could see the actual lightning flashes, and immediately the monitor lit up, indicating where the strike hit. It was instantaneous, and, therefore, very reassuring."
