

DTN ProphetX® for Energy Traders

Better data and more powerful analytics

Smart energy trades are about timing and insight. They never happen without real-time intelligence that reinforces buy and sell instincts. In today's challenging marketplace, it's more critical than ever that these decisions pay off.

When they need the most comprehensive actionable insights on the market to help them compete against the biggest and the best, savvy traders use DTN ProphetX. It's an easy-to-use, powerful solution with an industry-leading array of proprietary information, innovative productivity features, advanced analytics, and performance.

Until now, you've had to choose between tools that are either too simple to provide real information and insight, or too cumbersome to keep pace with fast-moving markets. DTN ProphetX delivers on all fronts, providing exceptional power, reliability, risk management, and value.

- Proprietary rack price information and weighted degree day data deliver advanced, unmatched insights and analysis, compiled and delivered from algorithms, first-hand interviews, and more.
- That information and analysis are supplemented with one-click access to charts of Greeks, implied volatility, volume, and open interest. Content from top-name third-party sources, as well as all U.S. commodity and several key international exchanges, are all included.
- Powerful forward curve and seasonal charts help see how prices are trending and plan ahead for the long term.
- Customized price alerts enable fast responses in volatile times.
- Extensive third-party and proprietary DTN data (including DTN and OPIS racks, DTN Fuel Buyer®, DTN Fuel Seller™, Platts, Argus, Exchange, and Weather data).

"DTN ProphetX does what it's supposed to do — it helps me make split-second decisions every day."
