

Confidence In Making The Right Call

OnGuard Siren Hardware

Siren beacon light

Flash red or yellow to alert the area of inclement weather, based on the alert type.

Siren

Three sirens come with one unit.

Junction box

Five wires connect to junction box wiring.

Pole

Option of one 8-foot or 4-foot pole with a 2 3/8 inch outside diameter for mounting.

Attabox

Includes wiring and the universal smart controller board. The information received to the board activates the sirens and beacon.

Hardware

Two U-bolts and two brackets are included to mount the Attabox.

Power cord

Includes wiring and the universal smart controller board. The information received to the board activates the sirens and beacon.

Roof mount

An 8-foot pole can be added to the mount with a 2 to 2 3/8 inch outside diameter.
