

DTN Weather Hub for Sports

When Seconds Matter, Make Every Decision Count

The challenge

Schools and sports organizations face split-second weather risks every day: lightning during warm-ups, tornado warnings at games, or heat emergencies at practice. One missed alert can turn a routine day into a crisis.

The solution: DTN Weather Hub

Purpose-built for sports, DTN Weather Hub delivers Decision-Grade Data and real-time intelligence to help athletic directors act faster, keep athletes, spectators, and staff safe, and protect community trust.

Benefits at-a-glance:

- Faster, safer decisions – Lightning countdown timers and instant tornado warnings give you the information you need to get students and staff to safety.
- Protect athletes & outdoor workers – Real-time WBGT monitoring prevents heat-related emergencies.
- Coordinate with confidence – Streamline communication between administrators, athletic directors, safety staff, and transportation teams.
- Defensible documentation – Automatic records of every alert and action for compliance, liability protection, and insurance purposes.

How it works

Detect

Hyperlocal forecasts and real-time peril tracking for storms, lightning, heat risk, high winds, snow, and ice.

Decide

Role-specific dashboards deliver the right data to the right people instantly.

Act

Trigger automated alerts, initiate safety protocols, and keep stakeholders informed without hesitation.

Built for education

- Automated alerts to unlimited staff eliminate manual weather monitoring tasks
- Site-wide monitoring for wherever your facilities are located
- Mobile access for all staff to monitor conditions

Three reasons athletic directors choose DTN Weather Hub

- 1. Protect lives:** Instant, reliable alerts reduce weather-related injuries and risks.
- 2. Coordinate with confidence:** Role-based dashboards connect administrators and staff.
- 3. Stay compliant:** Automatic records and reports for audits, insurance, and liability protection.

Lead with confidence, powered by Decision-Grade Data

Unlike generic weather apps, DTN Weather Hub is built for the responsibility you carry as a school or campus leader. Backed by 180+ meteorologists and Decision-Grade Data, it gives you the speed and foresight to turn weather risk into safety leadership.

Schedule your safety assessment today

When you're ready to strengthen your safety protocols, we'll be ready to help. Our team will work with you to assess your needs, demonstrate how DTN Weather Hub fits your operations, and build a plan that protects your students, staff, and community.

Let's take the first step toward faster, smarter weather decisions together.
